**Key Selling Aspects**

1. Availability. There are very few programs available to immigrants in the United States. With millions of immigrants in the U.S., the immigrant market may be new, but it is entirely untapped. Immigration Statistics provided by Center for Immigration Studies
  - 1.2 million legal immigrants settle in the U.S. each year.
  - Number of immigrants in the U.S. has tripled since 1970, from 9.6 million to 28.4 million
  - One-third of immigrants do not have health insurance
2. Coverage. Inbound Immigrant provides up to 5 years of coverage. Given the fact that many immigrants must wait several months to several years in order to become eligible for domestic coverage (including Medicare), Inbound Immigrant is the right product at the right time.
3. Affordable. When parents of U.S. residents come over to live permanently, they become a burden for the hosting relatives. Inbound Immigrant was designed to be affordable while still offering valuable benefit to immigrating relatives.
